Re: Amended Freedom of Information Act Request Relating to Investigation of West
Virginia Chemical Incident

To Whom it May Concern:

By this correspondence I seek to clarify and if necessary, to modify, my office's January 24, 2014 Freedom of Information Act request. This amended request incorporates entirely my office's request dated January 24, 2014 and builds upon – and does not limit – that request.

Though the initial January 24 request covered the following requested materials, in the interest of clarity I am more specifically requesting these materials now:

- Any Environmental Protection Agency protocols relating to information learned about a chemical spill or from a spill hotline and actions to be taken in response to the receipt of that information, regardless of whether these protocols were followed in response to the spill of the chemicals or not. The requested materials undoubtedly include any information about protocols for notification of water companies and/or water consumers relating to water contamination and/or water usage.

Please do not hesitate to send my office an invoice for any reasonable costs associated with this request.

Thank you very kindly.

Very truly yours,

Paul K. Vey
